

azara2025

USER CONFERENCE APR 29–MAY 1 | BOSTON, MA

Welcome to the 2025 User Conference!

Jeff Brandes
President & CEO

Azara Welcomes You!

You are in Good Company

- **410+** professionals from **40** states
- **290+** Practices & Health Centers
- **30** Primary Care Associations & Networks
- Friends & Partners of Azara
- Many first timers and lots of long-timers

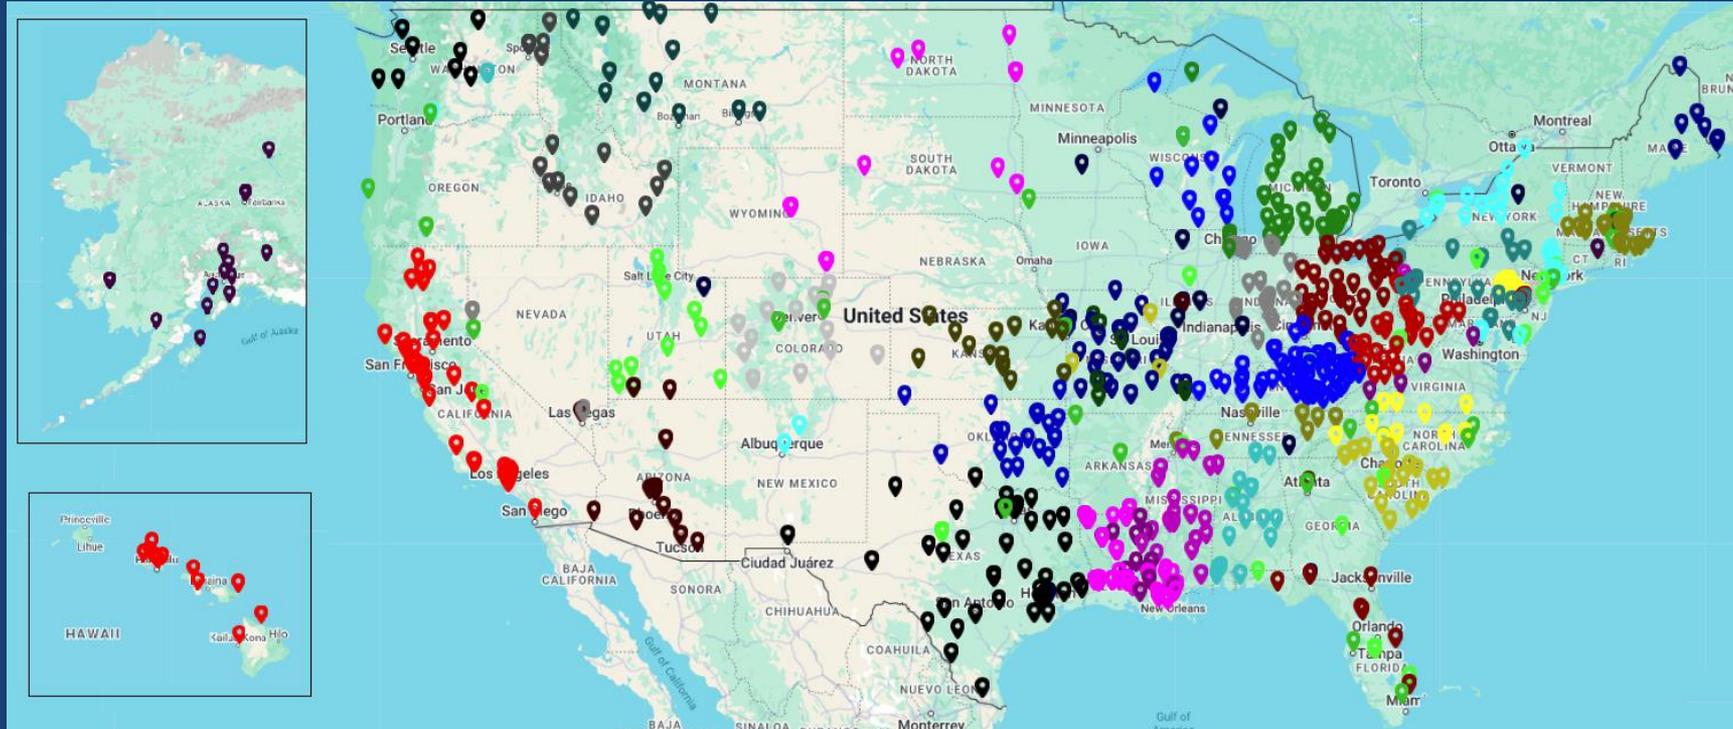

Meet New People

- Learn
- Engage, interact and collaborate
- Have a coffee or a drink with that Azara contact you only know via email or Zoom
- Have fun and enjoy yourself...

Diverse mix of Health Center, Network and PCA Roles, Responsibilities

- CEOs, COOs, CIOs, CMOs... All the C's
- Quality Directors, Director of Informatics, Population Health, Managed Care, Value-based Care, Health Informatics Director, HCCN Director
- Clinical Operations, Care Management, IT Manager, EHR Manager, RN, MD, PA
- Patient Service Manager, Population Management, Data Analyst, etc.

Azara Users Far & Wide (2025)

Conference Goals

Help you to **maximize the value** you get from your investment in Azara DRVS

Learn how others are using DRVS to **get RESULTS**

Understand how good data can **make a positive difference** in the care YOU DELIVER

Provide a glimpse of our **product plans** and OUR VISION

Make **peer connections** so you can each construct your own personal DRVS support “NETWORK”

Year in Review

Azara Takes a Bold Step Forward

**Azara now has a new investment partner
and merged with i2i Population Health to form a bigger, stronger, more diversified
population health company with continued focus on safety-net providers**

INSIGHT

- Focus on FQHC market
- Partner to 700+ Health Centers and 30+ PCAs, HCCNs and other networks
- Robust, 3rd generation product
- Expanding product portfolio
- 14 year, consistent growth history
- HITRUST, ONC, HEDIS certified
- Office in Burlington, MA

an award-winning leading Primary Health platform for Community and Critical Access Hospitals

PARTNERS

- 250+ clients, including 150 Health Centers
- Highly regarded, high touch client support methodology
- Key partnerships with Cerner, Trubridge and CVS-Aetna
- Experienced team
- Office in Franklin, TN

Why the transaction makes sense

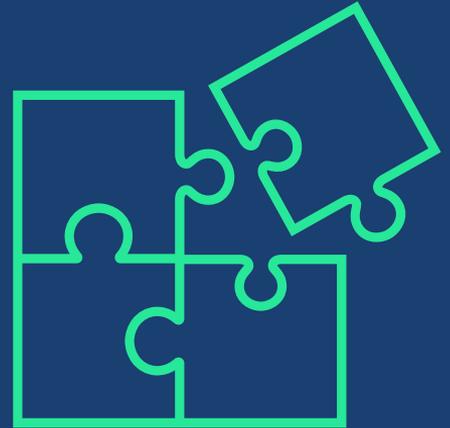

1 **Scale** provides opportunities - for clients and staff

2 Expanded **product** investment and capabilities

3 **Diversified** client base assures stability and innovation

4 Complementary **strengths** in areas of investment

5 Incremental **capital** to finance growth and offering expansion

Combined Highlights

Customers and Patients

- Data on **50 million+** patients
- **Over 1,000 practices**, spanning FQHCs, critical access / community hospitals, rural health clinics and more

Key Relationships

- **30+ PCAs & HCCN's**
- Reach across **49 states**

Focus on Supporting Healthcare's Safety Net

- Both Azara and i2i offer purpose-built population health management SaaS solutions for community health providers
- Dedicated to serve the **growing needs of the safety net ecosystem** as providers and payers increasingly pursue value-based care arrangements

- Azara was the **first vendor** to successfully send production data to HRSA
- Azara submitted data for **129** health centers
- Only 4 vendors submitted in 2024

- Over 400 health centers were registered to submit UDS+ data through Azara prior to HRSA's program suspension
- Responded to over 500 UDS+ inquiries and questions since January

Now What...

- Azara is “standing by” to meet the future needs of our clients and HRSA

Azara's Year in Summary

- ✓ Significant Team & Client Growth
- ✓ Cohort Creator
- ✓ UDS+
- ✓ Data Quality Investments - Lab Matching using AI & Machine Learning
- ✓ Expanded Payer-Provider Collaboration
- ✓ EHR Plug-In Enhancements
- ✓ Behavioral Health Integration
- ✓ New Investors
- ✓ i2i Merger
- ✓ Extended Support for Medicare Programs
- ✓ More Education & Training Material
- ✓ Activated Important Partnerships
- ✓ NCQA HEDIS Re-Certification
- ✓ NCQA Data Aggregator Re-Certification
- ✓ HITRUST Re-Certification

Our Success is Measured by Your Success

Waianae Coast Comprehensive Health Center

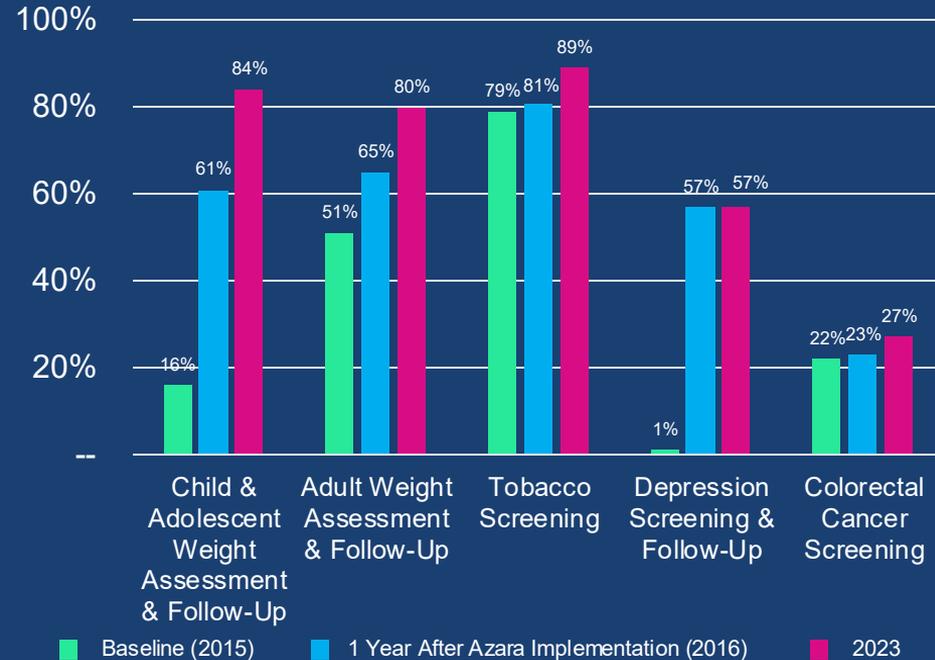

10 YRS OF IMPROVEMENT

...It started with a PVP pilot project in 2015

- Spread PVP use throughout the organization
- Added APO and Plan Data for VBC Reporting
- Expanded use of DRVS for point of care and to drive key initiatives

“Value-based, population-focused care is not just about implementing technologies—it’s about having a real partner that understands and supports your mission.”

- Kay Degal, Director of Quality

Driving Efficiency in Peer Review

azara
USER CONFERENCE
2025

Neighborhood Health Center is an FQHC serving Western NY. With over 28K patients, 350 employees and 75 providers, peer review was a time-consuming and daunting process. Leveraging Azara DRVS tools, Neighborhood Health Center reduced their peer review process from **hours, to minutes**.

CHALLENGE

- Licensed providers required to participate in quarterly reviews of 15 randomized charts, each consisting of 15-20 questions.
- Average time to complete the review was **2.5 hours/quarter for each provider**.
- Peer review processes were burdensome for both clinical and administrative teams.

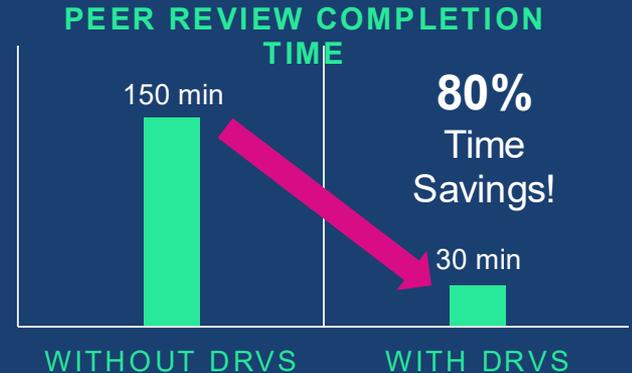

SOLUTION

- Moved from an administrative process to **outcome-driven approach**.
- Leveraged **DRVS** to identify outcome-based data elements needed for peer review.
- Quality Team applies quarterly **cohort** for each provider to the DRVS Registry to complete the Assessment form.

IMPACT

Increased provider satisfaction and DRVS engagement.

Quantifying Azara's Impact

Objective

- Compare Quality Metrics of Azara (and PVP) users to all FQHCs using publicly available* HRSA quality data

Method

- Analyze measure results for all 1,400+ FQHCs and grouped them into 3 categories
 1. Azara Clients that utilize the Patient Visit Planning Report (PVP) on 60%+ of working days
 2. All other Azara Centers
 3. Non-Azara Clients

* Results available at: <https://data.hrsa.gov/tools/data-reporting/program-data>

Using DRVS does make a difference!

Users of Azara's **Patient Visit Planning report** see **better results**, in some cases significantly better, than those who do not.

Across a broad range of UDS measures, Azara clients have seen a **4-9% increase in performance** after implementing DRVS

DRVS PVP Users have a **7-10% higher probability** of performing in the top quartile of all health centers

When analyzed on a state-by-state basis, Azara DRVS clients **regularly outperform** the non-Azara FQHCs on **key Quality Measures**.

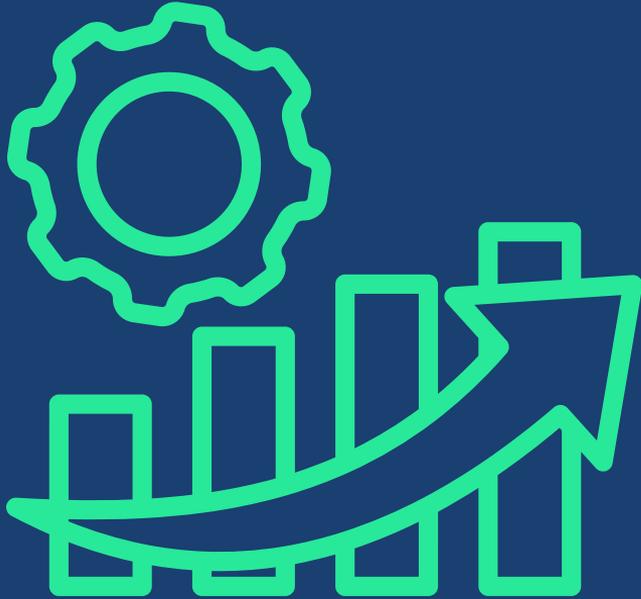

1,505,072 runs of the Patient Visit Planning report in the last year

In 2024, WV Health Centers using the PVP delivered **better results across 16 of 17 UDS Measures**, 8 with differentials exceeding 10%

Lest We Forget: The Real Objective

Your Feedback

Quoteworthy Success!

azara
USER CONFERENCE
2025

I just want to commend you on an absolutely fantastic training session this morning. Your presentation was not only comprehensive but also highly informative. You managed to make complex topics engaging and accessible, ensuring everyone walked away with valuable insights. It's clear you've put a lot of thought and expertise into this session, and it truly paid off. Thanks again for such an impactful and well-organized training!

On behalf of AUCH and our membership, I just wanted to pause and say thank you. Not only for your time yesterday, but we had a day to truly reflect on the incredible impact you have had to our networks success. Just by virtue of getting the population health tool, the doors that it has opened and the number of patients impacted—priceless. Thank you SO much for being such a driving force to our success.

Thank you so much! I sure do attend a lot of zoom trainings and will would rate yours as one of the best! You have a way of keeping it interesting and explaining in terms we could all understand. I am so excited to get everything mapped so I can start using it for reporting.

“Azara is an answered prayer! It has been a positive experience and it is so easy to use. When the UDS data was not available online, I still had access to our numbers in Azara. The dashboards are so easy to navigate. Everything is literally right there. It just all comes together including HEDIS measures!”

Heather Justes
Morgan County Health

“We’ve been through numerous, various implementations over the years and no experience has been as good as the one we’ve had with Azara. David Parson’s preparedness for meetings, attention to details, and, quite frankly, his honesty in answering questions was refreshing; Implementation with Azara finally felt more like collaboration with a vendor instead of a struggle.”

Josh Mishkin, Quality & Compliance
Coordinator
Kalihi-Palama Health Center

“The conference was amazing. To see the growth in engagement of Centers and networks and staff roles and impact on consumers is wonderful. You are truly listening to the needs and creating to meet them. What a beautiful evolution. And to feel the energy of the participants and the collaborative uplifting work is a miracle in healthcare touching patients. And last, but not least to see your energy, creativity and vision in leading an organization that listens, anticipates - “DRVS” is amazing.”

Ellen Hafer,
Former EVP & COO
Massachusetts League of Community Health Centers

Population Health 2025

State of the Market

- **Uncertainty around Federal funding and Medicaid driving organizations to:**
 - Quantify value delivered with hard data
 - Provide accountability
 - Demonstrate Return on Investment
- **Move to value-based care is accelerating for our clients**
 - Driving need for more data
 - Pushing payer-provider collaboration
 - Increasing expectation of integrated & coordinated care including behavioral health and care management
 - Medicare ACO participation
 - Need for cost and quality information in one place
- **Practices required to serve multiple entities with regard to their data**
 - Organizing into ACO's, IPA's and partnerships
 - Structured to provide more comprehensive and better coordinated care
- **Emergence of VBC Enablers**
- **CMS, HRSA, states, payers and other funders** stressing need for quality data and documented results
- **Actionable information from analytics must fit seamlessly into the provider workflow**

Azara's VBC Enabler Strategy

- Azara clients are actively engaging with VBC Enablers to explore and learn while minimizing their investment and risk to enter into VBC contracts
- Most Enablers have their own technology for Care Gap Identification, Risk Adjustment and Care Coordination/Care Management.
- Practices **do not** want to be forced to utilize multiple tools/workflows for different patients or contracts

Azara wants to **ASSURE** our clients do not need to make platform choices

We **WILL FACILITATE** the bi-directional exchange of data between the VBC Enabler and our clients, using existing DRVS & ACC workflows

- Right information, right place, right time
- Similar to what we do with our Health Plan Partners

Azara desires to **SUPPORT YOUR VBC JOURNEY**, whether you go it alone, with your peers in a network or with one or more VBC Enabler partners

Azara's Objectives

Be your **PRIMARY** system for population health and analytics with a comprehensive set of tools to help you deliver better care

Provider Focused Solutions

- Support Health Center approaches to treating safety-net population
- Quality Improvement
 - UDS & Grant Program Reporting
- ROI & Accountability
- Non-Clinical Factors
- Behavioral Health Integration
- Payer-Provider Collaboration

All the Analytics you need to Support Value-Based Payment Transitions

- Population Health
- Performance Monitoring
- Compliance
- Care Coordination & Care Management
- Operations
- Utilization, Cost & Risk
- Contract Management

Own Your
DATA

Own Your
FUTURE

Azara 2025 & Beyond – Our Commitment

- Continued focus on serving Safety-Net providers
- Quickly respond to emerging requirements for information
- Meet your needs for entering risk and value-based contracts
- Ongoing investment in Product, Infrastructure and Client Success services
- Listen to and incorporate your feedback
- Build partnerships that enhance our capabilities to meet your needs
- Be your partner for the long haul

Enable DRVS to make a difference in the care you deliver to your patients!
